

Postgraduate Pathology Course:

Pathology of the pancreas and biliary tract

Günter Klöppel, Department of Pathology, University of Kiel

Sted: Syddansk Universitet, Campusvej 55, 5230 Odense M, konference
sektionen, auditorium 100

Friday, 19 May 2006

13:00 **Introduction to pancreatic pathology**

Case 1: PDAC, G1 (= Fall 1 IAP)

Case 2: PDAC, resection margin, PanIN-3 (= Fall 4 IAP)

Case 3: undifferentiated carcinoma (= Fall 18 IAP)

14:20 **Pre-operative staging of pancreas cancer by EUS, surgical procedures and the specimen**

14:40 Coffee break

15:00 **Chronic pancreatitis**

Case 4: alcoholic chronic pancreatitis (= Fall 6 IAP)

Case 5: autoimmune pancreatitis (= Fall 5 IAP)

Case 6: paraduodenal chronic pancreatitis

Differential diagnosis PDAC vs. CP

16:30 Coffee break

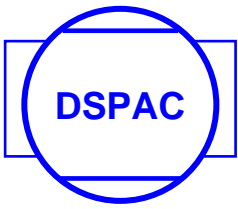

16:45 **Uncommon tumors of the pancreas**

Case 7: acinar cell carcinoma (= Fall 13 IAP)

Case 8: pancreatoblastoma (= Fall 20 IAP)

Case 9: endocrine tumor (= Fall 21 IAP)

17:30 end of the session

Saturday, 20 May 2006

9:00 **Cystic tumors of the pancreas**

Case 10: IPMN, intestinal type (= Fall 8 IAP)

Case 11: IPMN, branch duct type (= Fall 9 IAP)

Case 12: MCN (= Fall 10 IAP)

Case 13: SPN (= Fall 14 IAP)

10:15 Coffee break

10:45 **Tumors of the biliary tract**

Case 14: Klatskin carcinoma

Case 15: mucinous biliary tumor

Case 16: intraductal biliary neoplasm

12:00 End of the course
